**Watermill Express® provides water at H-E-B Feast of Sharing events throughout Texas**

Brighton, Colo. – December 1, 2008 – Watermill Express, the nation's largest drive-up vendor of pure drinking water, donated 350 gallons of water to H-E-B Feast of Sharing events held November 16 – 20 in the Rio Grande Valley.

This is the 15<sup>th</sup> year Watermill Express has participated in the Feast of Sharing event. The Feast of Sharing program brings together hundreds of H-E-B partners and local volunteers to provide a free Thanksgiving dinner with all of the trimmings, along with a full day of entertainment to the community.

Watermill Express was involved in H-E-B Feast of Sharing events in McAllen, Brownsville and Harlingen throughout the month of November. The three events combined to serve over 35,000 Thanksgiving dinners.

“Every Watermill Express employee who volunteers at our events go out of their way to make it a success,” said Virginia Perez, Public Affairs Specialist for the Border Region of the H-E-B Feast of Sharing. “The water that Watermill Express provides is just as important as the food that is provided. Everyone that attends knows the Watermill name and loves the clean taste the water has.”

This year a total of 250,000 hot meals will be provided to people at H-E-B Feast of Sharing events throughout Texas, all in an effort to combat hunger and improve quality of life in the communities we serve.

“Companies who continue to contribute to our Feast of Sharing are incredibly valuable this year,” said Perez. “With the poor economy, we are seeing record turnouts in each city, and can't thank Watermill Express enough for continuing to support our cause.”

**About Watermill Express:**

Watermill Express is the nation's largest provider of drive-up, pure drinking water. Founded 24 years ago in Brighton, Colorado, the company serves over 100,000 customers daily in the existing 1,200 corporate and franchised locations. Customers supply their own containers and purchase one, three or five gallons of water for an average price of 35¢ per gallon. This is a savings of nearly 95% when compared to a typical 20 oz. bottle of water selling off-the-shelf at \$1.00 per bottle.

Watermill Express is an environmentally friendly alternative to pre-packaged water. By promoting reusable containers, the company has prevented the waste of an estimated 500 million disposable water bottles.

As the innovator of the drive-up pure drinking water concept, Watermill Express is the first in the nation to utilize a daily 29-step quality control checklist, surpassing even the most rigorous state inspection requirements. The company has operations in nine states and is currently offering franchise opportunities in ten additional states.
