Watermill Express® Donates Water to the Ride Against Hunger

Brighton, Colo. – June 8, 2010 – Watermill Express, the nation's largest drive-up vendor of pure drinking water, donated 60 gallons of water to the approximately 400 participants in the Ride Against Hunger bike event in Mission, Texas.

Watermill Express had three water stations set up throughout the ride to provide chilled water, along with snacks and first aid kits to all participants. Watermill Express set up tents at the start and finish lines of the event to provide water for the participants as well as volunteers.

The Ride Against Hunger is a bike tour hosted by the Rio Grande Valley Food Bank. The event consists of a 25, 40 or 60-mile bike ride for adults and 10-mile bike ride for children. For those that would rather run than bike, the event also has a 5K run/walk.

The funds generated from the Ride Against Hunger will be used to help promote healthy living among families in the Rio Grande Valley. According to the USDA more than 12 million children are living in households that do not meet food quantity standards. In the Valley this means that one out of every two children goes to bed hungry on a nightly basis. The funds generated from this event will help families in the Valley with their food needs.

About Watermill Express:

Watermill Express is the nation's largest provider of drive-up, pure drinking water. Founded 26 years ago in Brighton, Colorado, the company serves over 100,000 customers daily in the existing 1,300 corporate and franchised locations. Customers supply their own containers and purchase one, three or five gallons of water for an average price of 35¢ per gallon. This is a savings of nearly 95% when compared to a typical 20 oz. bottle of water selling off-the-shelf at \$1.00 per bottle.

Watermill Express is an environmentally friendly alternative to pre-packaged water. By promoting reusable containers, the company has prevented the waste of an estimated 500 million disposable water bottles.

As the innovator of the drive-up pure drinking water concept, Watermill Express is the first in the nation to utilize a daily 29-step quality control checklist, surpassing even the most rigorous state inspection requirements.
