Watermill Express® Donates Water to the U.S. VETS Patriot 5K Race

Brighton, Colo. – June 9, 2010 – Watermill Express, the nation’s largest drive-up vendor of pure drinking water, provided 100 gallons of water to over 450 participants in the U.S. VETS Patriot 5K Run/Walk in Houston, Texas.

Watermill Express handed out cups of water to all participants and volunteers throughout the race day. Watermill Express had three water stations, two on the course and one at the start/finish, to help all participants stay hydrated during the race.

“The water stations set up at mile markers one and two were important in keeping all of our racers hydrated during the run in the soaring Texas heat,” said Nathalie Ross, U.S. VETS Patriot Race Director.

Donations for the race totaled \$30,000, a 120 percent increase over last year’s race. All of the proceeds go to the U.S. VETS organization which is the nation’s largest organization dedicated to helping veterans in need. The U.S. VETS use donations to help provide housing, counseling, career development and comprehensive support to veterans.

“Watermill Express also had a great banner in support of our troops which underlined the theme of our event and why everyone was in attendance today,” said Ross. “The success of our race would not have been possible without the generous donation from Watermill Express.”

About Watermill Express:

Watermill Express is the nation’s largest provider of drive-up, pure drinking water. Founded 26 years ago in Brighton, Colorado, the company serves over 100,000 customers daily in the existing 1,300 corporate and franchised locations. Customers supply their own containers and purchase one, three or five gallons of water for an average price of 35¢ per gallon. This is a savings of nearly 95% when compared to a typical 20 oz. bottle of water selling off-the-shelf at \$1.00 per bottle.

Watermill Express is an environmentally friendly alternative to pre-packaged water. By promoting reusable containers, the company has prevented the waste of an estimated 500 million disposable water bottles.

As the innovator of the drive-up pure drinking water concept, Watermill Express is the first in the nation to utilize a daily 29-step quality control checklist, surpassing even the most rigorous state inspection requirements.
